

Instructions for Growing Your Heart:

1. Cut out the heart.
2. Fold it in half along the dotted line.
3. Beginning at the folded edge, cut along the #1 and #2 solid lines **STOPPING BEFORE YOU REACH THE EDGE.**
4. While it is still folded, carefully slip your scissors under the fold and cut along the dotted line. The cut will be down the center of the heart with the top and bottom of the heart still intact.
5. While it is still folded, cut along the remaining solid lines.
6. Open your heart and see how big it has grown!
